[REDACTED]

DOCUMENT NUMBER: 85357

PERSON INTERVIEWED: Debra Dye

PLACE OF INTERVIEW: 540 Division Street, Campbell, CA

DATE OF INTERVIEW: 12/09/2004

TIME OF INTERVIEW: 8:00 pm

INTERVIEWED BY: SA Susan Leeds and CSO Susan Turcovski

OTHER PERSONS PRESENT: Karen Crawford and Linda Eaton

DEBRA DYE was interviewed during the execution of a search warrant at the premises of List Biological Laboratories, Inc. ("List"), Campbell, CA. Present during the interview were Karen Crawford, President of List, and Linda Eaton, also of List. After being apprised of the identities of the interviewing agents, Dye voluntarily provided the following information.

Dye was asked about her recollection of the sales of botulinum toxin type A to TOXIN RESEARCH INTERNATIONAL, INC. ("TRI"), Tucson, AZ. Dye was not familiar with TRI, but was familiar with the transaction referred to, which she said occurred about 18 to 24 months earlier. The name of the company she dealt with was POWDERZ and the individual she spoke with was CHAD LIVDAHL.

Dye never discussed with LIVDAHL how the product would be used. She processes 20 to 30 orders each day. Dye did not know LIVDAHL intended to use the botulinum on humans. She assumed he was using it in a kit to test for the toxin. LIVDAHL used a credit card to purchase the botulinum from List. Sometimes there were issues with clearing the credit card purchase due to limit issues with the card.

The order from POWDERZ consisted of one transaction. List made a single shipment of 24 boxes wrapped in shrink-wrap. The shipper's export declaration for the shipment is dated May 15, 2003.

The shipment of botulinum toxin type A purchased by ADVANCED INTEGRATED MEDICAL CENTER, INC. ("AIMC"), Fort Lauderdale, FL, was processed and shipped on November 22, 2004. According to Dye, sometimes shipments of dangerous goods get delayed. List still had some of the lot in stock.
